

Construct Loneliness

Text

*I've been feeling all alone. I go to therapy,
but it's useless. No one cares one cares
about me. I want out.*

Possible construct representations:

- construct prototype: [lonely]
- lexicon tokens: [lonely, alone, I miss my friends, no one talks to me]
- x centroid of lexicon

Possible document tokens:

- x sentence tokenized by punctuation ("I go to therapy, but it's useless.")
- x independent clauses ("I go to therapy", "it's useless")
- x Lemmatized unigrams without stopwords ("go", "therapy", "useless")

lonely alone no one talks to me

Is this document
about loneliness?

Score: **0.77**

- ✓ Zero-shot: no training data
- ✓ Does not require exact match
- ✓ Interpretable
- ✗ Does not learn contextual information (negations, hedges)
- ✗ Output similarity is not calibrated (0.5 threshold may not be optimal)
